Attendance Policy

I agree that the therapists at Freedom Physical Therapy & Sports Rehabilitation (FPT&SR) are busy and maintain full schedules in caring for patients. As a consequence, scheduling is carefully managed to optimize access for those most needful of and desiring therapy services.

I agree that my participation in scheduling is important. In fact, I'm aware that **failing to show for scheduled appointments (No Shows) can result in my dismissal from therapy services and/or a \$30 No-Show fee** for every session missed. In such cases, my referring physician will also be contacted with information regarding the No Shows and/or dismissal from services. Of course, for cancellations such as illness or schedule conflicts, a notice of 24 hours or greater is requested.

The following clearly states FPT&SR's policy regarding No Shows:

1. **One No Show** will result in **access to only week-by-week scheduling** (appointments scheduled no greater than 7 days in advance).
2. **Two No Shows** during the treatment period for any condition will result in a **discharge** for that case.

OR

3. **A total of three No Shows** for past and present treatments will result in a **permanent dismissal**. No visits will be allowed in the future.

To **help me succeed**, FPT&SR offers **complimentary reminders prior to any or all appointments**. I can choose from **text messages, emails** or **phone calls**. However, I am responsible for arriving at my appointments whether I am contacted or not.

I agree to the Attendance Policy above as a condition of treatment at FPT&SR.
